

*Adding/Editing your search page will allow you to customize the criteria displayed to your liking.*

Once you have entered in the desired criteria:

1. Click **Customize** in the tool bar and select **Fields**.

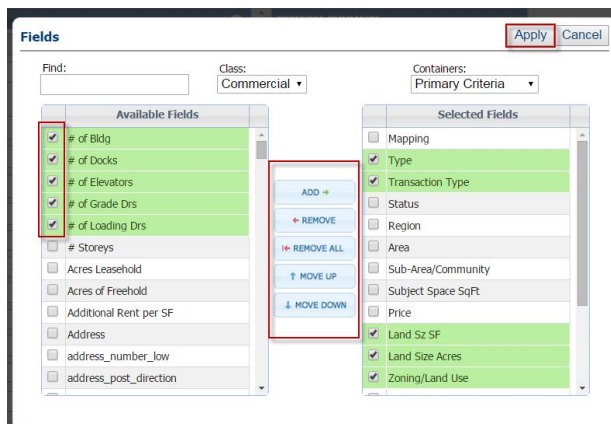

2. The *fields* window will appear and display all available fields you may select.

3. Select the fields you would like to have displayed, and click **ADD**.

4. You may also select fields within '**Selected Fields**' and remove them, by clicking '**REMOVE**'

5. Once the desired fields have been moved to *Selected Fields*, Click Apply.

*Note: You may also organize the order of the fields by using the 'up' and 'down' buttons located at the center.*
